

Exhibitions of Visual Arts and Crafts & Applied Arts

In this survey section we are interested in all your activity related to exhibitions of visual arts and crafts & applied arts. A definition of visual arts and crafts & applied arts is included in the Artform classification guidance notes (see link at top of each survey page).

You should complete this section if your organisation holds any visual arts or crafts & applied arts exhibitions which were professionally curated and open to the general public.

If your gallery space is not self-contained, for example it is located within a foyer area, café/bar or corridor, and it is not possible to use an automatic counter to collect visitor numbers, we will accept an estimate of the number of attendances. However, this needs to be a realistic estimate based on tools such as random gallery counts carried out on a number of occasions or based on a percentage of all users. It is ok to count the same visitor twice so long as this is based on sensible judgement of the exhibitions on show and not an assumption that every single visitor to the building attended every exhibition on show.

Question 1

Please enter the number of Visual Arts exhibitions you hold by type, along with attendances. If you give the number of exhibitions, you **must** give the number of attendances to that exhibition.

These 'protected characteristic' groups include: disabled people, those from a Black and Minority Ethnic background, welsh speakers, children and young people, lesbian gay or bi-sexual people, transgender people, older people (aged 50+), people with specific religious beliefs, and pregnant women and new mothers.
